

9th Annual
Watershed Management Symposium:
Urban and Agricultural Collaborations

Watershed and Stormwater Symposium
February 8 & 9 2017
Hotel Julian

This years symposium will be focusing on both urban and agricultural ecosystem challenges as they relate to water quality and flooding. The symposium will feature a diverse group of speakers and topics such as:

- ◆ Cost Benefit Analysis of BMPs in the City of Coralville, IA
- ◆ Watershed Management Planning: Viewing the watershed with both Urban and Ag Eyes
- ◆ Updates from the Iowa Flood Center & Real-time Statewide Monitoring
- ◆ Des Moines Water Works Lawsuit Discussion
- ◆ Soils: Is Restoring Soil Health Achievable?
- ◆ Water Quality Trading in Iowa & WI Adaptive Management Strategies
- ◆ BMP Performance: Ag & Urban—Cost vs. Performance
- ◆ Nutrient Reduction Strategy: Are we making progress?
- ◆ Sustainable Iowa Land Trust & Easements (SILT)
- ◆ The Dubuque Bee Branch Tour (Optional, Please Register Below)

Breakfast & Lunch Included, PDH Certificates, Student Discounts!

A Block of Rooms at Hotel Julian are available for \$71 a night. (Fantastic deal, don't hesitate as this block of rooms will fill fast) Full Conference Agenda available at www.catfishcreekwatershed.org

The evening of Feb 8 will also feature a networking reception sponsored by various vendors and consultants at an area establishment.

LAST DAY TO REGISTER IS JANUARY 27.
